Wednesday and Thursday are pretty open for us. Our clean and safe team managers will attend (Paul Williams of Chrysalis Enterprise and Azucena Vela of Allied Universal) as will I, and possibly Cwennen Corral of our staff.

I missed the opportunity to get Lt. Solomon's availability this morning, so I have cc'd him here to gain his availability.

Happy to include all. Lt. Solomon is actually here at our office briefing our safe team, so I will get his availability, along with our clean and safe team managers' availability and send you an email later this morning.

Hi Tara,

We should include LAPD Lt. Soliman and my senior staff members Victor Juaregui (Sr. Recreation Director) and Fernando Flores (Park Maintenance Supv.) in the initial meeting. Please let me know what days and times work for you next week.

Thanks.

Bob

Dear Bob:

I'd like to schedule a meeting ASAP with you and any other relevant individuals that would include the BID clean and safe team managers. As we deploy this month, there are a number of service-related issues that it would be great to discuss. Chrysalis Enterprises will be providing

our clean services, and Allied Universal our safe.

We can host either at our office or one of my board member's offices in the area (I'll confirm a location when I know the number of participants.)

Please advise:

- your availability for such a meeting
- other suggested attendees

I'll coordinate other participants quickly once I hear back from you.

Thanks!
